

# ANNOUNCING PEER TO PEER

*Best Practice Sharing and Review*

**AFOP is pleased to announce...**

We are launching Phase II of AFOP's Peer to Peer program! As the Opportunity Act brings new challenges and opportunities to our member organizations, AFOP is excited to support that transition with the Peer to Peer program. Request a program review in your state or attend a site visit to learn about best practices in programs across the country. Through this initiative, you and your staff can explore strategies to address specific challenges, receive recommendations for effective practices to implement, and share your program and customer successes.
