

TEXAS A&M UNIVERSITY
Colonias Program

To whom it may concern,

My name is Erica Rey, back in 2010 after working for several months in a Pecan Farm located in Fabens, TX I encountered a great opportunity to return to school with the MET (Motivation, Education, and Training INC.) Program. I started with MET on January of 2010 under the Bilingual Customer Service Program. I graduated from MET on March 2010 but for then I was already working in a Day Care Center and in the search for another job. On April 2010 I got a call from job placing personnel at EPCC MET Prog. informing me of a job opportunity with Texas A&M University Colonias Program I remember it was the longest online application ever, I thought of it for a day or two and finally gave it a try. The best decision I have ever made that until now (9 yrs. later) I'm still with A&M and went from a Community Health Worker I to a Community Health Worker Leader III. I wouldn't have gotten this job if it wasn't for MET job training and the skills I acquired. I still have a long way to go I'm going back to school for my Associates on Social Work to advance in my work since I won't go further up without college credits and it's never too late to start.

If you have been a migrant / seasonal farm worker don't let this opportunity pass. It can change your future and your family's future!

Sincerely,

*Erica Rey- CHW III
